Help Beat Heart Disease!

Have you ever wondered what you can do, personally, to beat heart disease? Consider becoming part of the **UA Sarver Heart Center Biorepository**. Our clinical research

Philip Davia and Erika Yee share a number of life-saving messages, including chest-compression-only CPR and how to participate in clinical research.

team will warmly welcome you to participate whether

or not you have heart disease or a known risk factor. Enrollment means completing a questionnaire, signing an informed consent form that allows researchers to view your electronic medical record and donating about three tablespoons of blood. These blood samples will help scientists better understand heart disease to improve care and treatment now and in the future. Click on the [Cardiology Research Registry link](#) to get started.

Support Sarver Heart Center's Mission

We are grateful to [Walmart for funding a grant](#) to support the community outreach mission of the Sarver Heart Center [Minority Outreach Program](#). The grant helps the Community Coalition for Heart Health Education extend its reach as members teach chest-compression-only CPR and raises awareness about heart disease and prevention. Special thanks to Wanda F. Moore, JD, and Angela Josiah, PharmD, who collaborated to obtain the grant. We hope you'll join these volunteers by donating to support Sarver Heart Center' mission. Please contact **John B. Fung**, 520-621-1946, for more information. We invite you to be part of our mission!
